iPUR

international PhD program
at the University of

The **international PhD program at the University of Regensburg (iPUR)** aims to establish a structured and international post-graduate training at the **Faculty of Biology and Pre-clinical Medicine** and at the **Faculty of Chemistry and Pharmacy** of the University of Regensburg (UR).

The essential goal of the **iPUR** project is to stimulate and foster research stays of foreign PhD students at the participating faculties at the UR and of PhD students from the UR abroad. By means of customized information and recruitment we intend to rise the percentage of excellent foreign students who successfully accomplish their PhD at the University of Regensburg.
